

# Chargefox Services and Fees

Effective from 6 February 2024

This document provides pricing for Chargefox EV charger and fleet vehicle management services.

This includes services for site hosts operating both public and private chargers, and fleet operators operating both private fleet chargers and fleet electric vehicles.

The provision of sim and Telstra data for purposes of EV charger internet connectivity is optional and at your discretion. Should Sim and Telstra Data services be required to be provided by Chargefox, this will be agreed during the initial setup of a Charger and from time to time.

In accordance with clause 2.3 of the Chargefox Site Host Terms and Conditions, Chargefox will retain the End User Transaction Fee.

All fees below are **exclusive of GST**.
